CLEANFOS

Municipal combination unit

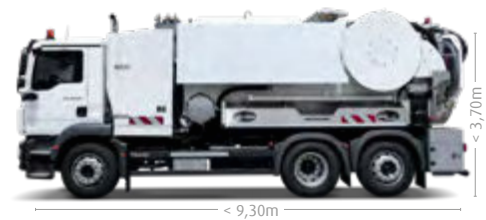

Comfort

- Easy access for maintenance
- Easy cleaning of the tanks
- No hose connection

Safety

- Led lighting of the work zone
- Automatic perimeter pedestrian lighting
- Level and load indicators

The CLEANFOS is truly the ideal equipment for septic tank maintenance.

Productivity

- 5 radio-controlled phases
- Less waste to treat
- Quick installation and operation

Environment

- Water saving
- Bacteria saving
- In line with standards and environment friendly

Its design allows for a significant reduction in the volume of sludge and thus better exploitation of the rounds.

The return on investment is very fast.

The CLEANFOS is available on a 26t carrier and in alternative solutions.

Technical features

CLEANFOS

Municipal combination unit
